THE PEACE MOVEMENT. The reader is referred to the fourth page President Lincoln's version of it. It will be seen that the rebel Commissioners refused to make any efforts towards peace without first being virtually recognized as an independent nation. This the President refused to do, and thus terminated the conference. That the action of the President will receive the sanction of his countrymen, we have no doubt,

THE HISTORY OF DR. SCHENCK'S OWN CASE. AND HOW HE WAS CURED OF CONSUMPTION. Many years ago, whilst residing in Philidelphia, I had progressed gradually into the last stage of Pulmonary Consumption. All hopes of my recovery being dissipated, I was advised by my physician, Dr. Parrish, to remove into the country. Moorestown, New Jersey, being father and all his family had lived and died there-and died of Pulmonary Consumption. On my arrival I was put to bed, where I lay for many weeks in what was deemed a hopeless condition. Dr. Thornton, who had been my father's family physician, and had attended him in his last illness, was called to see me. He pedicine, and decided that I must die, and gave me one week to arrange my temporal affairs. In this appearantly hopeless condition, I heard of the remedies which I now make and No. 3, Buckland Block. sell. It seemed to me that I could feel them working their way, and penetrating every nerve,

fibre, and tissue of my system. My lungs and liver put on a new action, and the morbid matter which for years had accumulated and irritated the different organs of the body, was eliminated, the tubercles of my lungs ripened, and I expectorated from my lungs as much as a pint of yellow offensive matter every morning. As this expectoration of matter sub-sided, the fever abated, the pain left me, the cough ceased to harrass me, and the exhausting night-sweets were no longer known, and I had refreshing sleep, to which I had long been a stranger. My appetite now began to return, and at times I found it difficult to restrain myself from eating too much; with this return of health, I gained in strength, and now am fleshy. I am now a healthy man, with a large healed cicatrix in the middle lobe of the right lung and Cash on hand and in Bank, the lower lobe hepatized with complete adhesion of the pleura. This induced many people to believe my recovery only temporary. I now prepared and gave the medicine to consumptives for some time, and made many won-derful cures; and the demands increased so rap-6,334 30 idly that I determined to offer them to the pub lic. and devote my undivided attention to lung 1,000 00 diseases. In truth I was next to forced to it, for people wound send for me far and near, to Ohio ascertain whether their cases were like mine. For many years, in conjunction with my principal office in Philadelphia, I have been

making regular professional visits to New York. Boston, Baltimore, and Pittsburg. For several years past I have made as many is five hundred examinations weekly with the "Respirometer." For such examination my charge is three dollars, and it enables me to give each patient the true condition of his disease, and tell him frankly whether he will get well. The great reason why physicians do not cure onsumption is, that they try to do too much; they give medicines to stop the cough, to stop the night-sweats, hectic fever, and by so doing

they derange the whole digestive system, locking up the secretions, and eventually the patient The Pulmonic Syrup is one of the most valable medicines known. It is nutrient, powerfully tonic, and healing in itself. It contains no opium, yet loosens the phlegm in the bronchial tubes, and nature throws it off with little exertion. One bottle frequently cures an ordinary cold; but it will be well first to take a dose of Schenck's Mandrake's Pills to cleanse the stomach. The Pulmonic Syrup is readily digested and absorbed into blood, to which it imparts its healing properties. It is one of the best preparations of iron in use; it is a powerful tonic of itself; and when the Seaweed Tonic ijssolves the mucus in the stomach, and is carried off by the aid of the Mandrake Pills, a

a good digestion follow. Bourbon whisky, which disorders the stomach. torners the liver, locks up all the secretions. turns the blood into water, dropsy sets in, and the patient dies suddenly. Bourbon whiskey is recommended now-a-

days by almost every physician. Many patients that visit my rooms, both male and female, are stopefied with this poison. The relief is temporary. If they cough they take a little whisky; if they feel weak and feeble they take a ittle whisky; if they cannot sleep they take a Branch Office, Cinciunati, Ohio. little whisky; and they go on in this way, requiring more and more until they are bloated up, and imagine they are getting fleshy. The stomach, liver, and digestive powers are completely destroyed, and lose their appetite for No one was ever cured of consumption by this process, where cavities have been formed in the lungs. A little stimulant is frequently beneficial to consumptives, such as pure brandy or good wines; in many cases Lo porter or brown stout in moderate qualities; but

Bourbon whiskey hastens on instead of curing
